All 3 crates do have access doors that can be unscrewed.

Monday is fine, any idea if it would be morning or afternoon?

Thank you,

Melissa Barnes — Warehouse Manager

Melissa

I understand that we have been cleared to view the motor and take pictures next week. Can you please let me know if you have availability on Monday 11/9/2020.

There is no motor ppwk attached to the crates. I can not send you a nameplate/data pic bc the motor is still crated. We've received permission to remove the crates until just recently when it was determined to be sold.

If you'd like to come look at the pieces still crated you are welcome to come anytime.

However, if you would like us to remove the crates for inspection, that will need to be scheduled and I'll need a PO for the labor. I don't have labor hands on site to do that kind of work normally..

Please let me know how'd you like to proceed.

Melissa

Thank you for the information. Can you send me a picture of the data plate and let me know if there is any motor specification paperwork in the crates?

As far as coming out, can you verify your address. Based on what you are able to provide above/timing I could potentially come early afternoon on Wednesday or on anytime on Thursday.

As long as the storage is continued to be paid quarterly, there is no time line on when it has to be moved out. The motor is still crated but you are welcome to come look at it anytime, just let me know. Steel toes are required in the whse. I can provide pictures at anytime.

We are able to load on the customers truck at no dd'l charge. Please be aware, when it is time to ship, it will be 3 pieces, listed below

#	LOC	IPS TAG	CUSTOMER NAME	BILLING GROUP	L	W	H	WEIGHT	MTR Serial	DESC

Melissa

We have received authorization from MPC to market the described motor. Can you please let me know:

- Availability to come to your facility to take storage, or if you need to provide the pictures?
- Required PPE?
- Any timeframe to have the motor removed?
- Ability to load on buyer's transport. Will there be a separate charge for these service?

Thank you Al,

We will begin working on this immediately.

Please let me know if you have any documentation, drawings, order paperwork, etc.

Best,
Stacey

Stacy & Melissa,
All due diligence has been taken to try and find an opportunity to utilize this motor within the MPC enterprise with no luck.

MMR is hereby authorized to start their Solicitation for Bid process.
This correspondence also informs Integrated Power Supply to assist with pictures and opening crates as needed to support same.

As needed, I may be contacted via email or phone @ 832 418-1565

Kind regards,

Al
